MEMORANDUM FOR DOD CHIEF INFORMATION OFFICER

SUBJECT: Formal approval of the Recognized Cyberspace Occupations that must be coded under the 8140 Policy Series

On Dec. 21, 2021, the DoD Instruction 8140.02, "Cyber Workforce Identification, Tracking, and Reporting" was published, making the 2017 Coding and Identification guidance outdated by no longer using the term "core occupations." The Instruction establishes policy, assigns responsibilities, and provides guidance for the identification, tracking, and data collection of the cyberspace workforce. The Instruction also enhances cyber workforce tracking capabilities, thereby improving metrics to support leadership decision making regarding workforce development priorities and structure.

The Cyber Workforce Advisory Group (CWAG) general membership and the Cyber Workforce Management Board (CWMB) general membership have agreed upon 2210 Information Technology (IT) Management, 1550 Computer Science, 0332 Computer Operations, and 0335 Computer Clerk and Assistant occupational series to be the recognized cyberspace occupations that must be coded under the 8140 Policy Series.

On behalf of the CWMB Tri-Chairs, DoD CIO, USD(P&R), and OPCA, this memorandum represents the formal approval of 2210, 1550, 0332, and 0335 occupations as the recognized cyberspace occupations that must be coded under the 8140 Policy Series.

The DoD CIO point of contact for this memorandum is Ms. Bobbie Sanders, Director, CyberWorkforce Management Directorate, bobbie.h.sanders.civ@mail.mil, (703) 697-3426.
