THE DOD CYBER AND INFORMATION TECHNOLOGY EXCHANGE PROGRAM

EXCHANGE HIGHLIGHTS

A director of strategic intelligence and government from FireEye participated in a one-year exchange to the Defense Innovation Unit as a cybersecurity product manager.

An artificial intelligence expert from C3.AI participated in a six-month exchange to the Department of the Air Force as a special assistant to the Department of the Air Force chief scientist.

QUESTIONS?

For additional questions, please contact the DoD CITEP mailbox at osd.mc-alex.dod-cio.mbx.ask-citep@mail.mil.

ABOUT THE CITEP PROGRAM

The DoD Cyber and Information Technology Exchange Program (CITEP) provides a unique opportunity for DoD and private sector employees working in the information technology (IT) and cybersecurity fields to participate in a temporary detail (between three months and one year) between the two sectors.

CITEP CAREER DEVELOPMENT

This is an opportunity for you to enhance your IT and cybersecurity competencies and technical skills through defined and meaningful experiences at a DoD organization.Throughout the process you will gain exposure of emerging IT and cybersecurity concepts, strategies, private sector best practices and more.

ELIGIBILITY REQUIREMENTS

To be eligible for CITEP you must be able to obtain and maintain the same type, level and adjudication of the security clearance required to perform the duties of the exchange assignment. Applicants must possess the experience, knowledge, and skills required for the exchange opportunity and meet the definition of a high-performing employee in accordance with their organization's performance standards.
Lastly, receive an endorsement from their immediate supervisor.
